

## IMPORTANT CHANGES FOR PBC

As you are by now aware, PBC is going to be making changes to their fees and adding options to claim submissions. When PBC notifies you that these changes are to take place, you can set them up in Power Practice by doing the following:

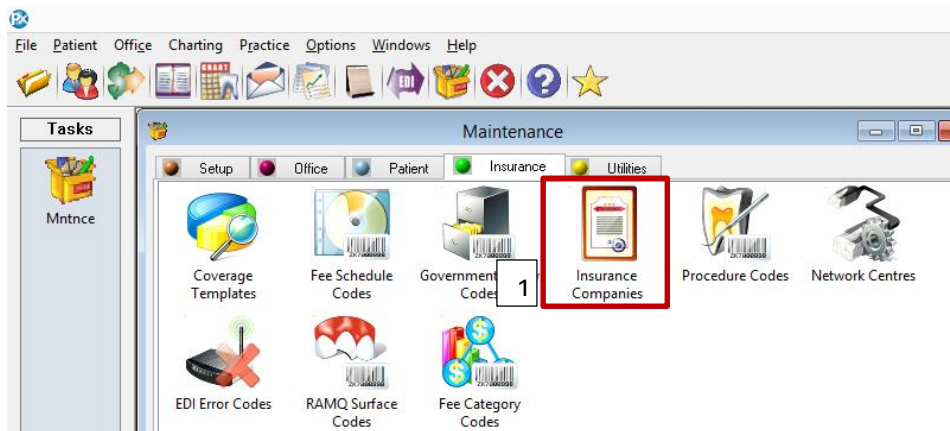

### Your PBC Fees:

If you currently use the PBC Splits fee guide (Dr's fee plus lab fee, for example: code 27211 - \$711.00 plus (lab) L27211 - \$474.00) then you *will not* need to change your fees.

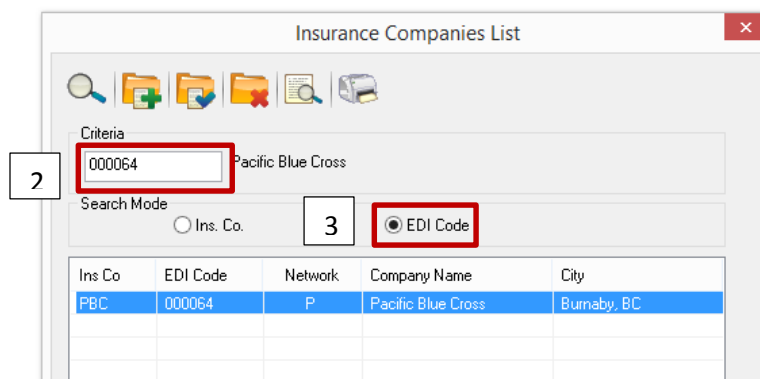

If you charge a Dr's fee only, for example: code 27211 - \$1185.00 plus L27211 - \$0.00 then you will need to call Support at 1-888-808-6223 ext 2 to load a new fee guide.

**To change PBC insurance to allow for the added functions do the following:**

1. Go to Maintenance Manager, to the Insurance tab and double-click on Insurance Companies

2. In the criteria field, type 000064
3. Select EDI code and click the Search icon located at the top left corner

3. Double-click on one of the companies listed in the search results to make changes
4. Click on the EDI Setting button
5. Make sure there are checkmarks next to:
  - ✓ Claim transaction
  - ✓ Claim Reversal
  - ✓ Predetermination
  - ✓ Coordination of Benefits Transaction
6. Click OK and OK to save and exit
7. Repeat steps 4 to 7 for each insurance that shows in the list.

### If you need to change the Dr's PBC Billing Number:

Go into Maintenance, Insurance and Insurance Companies. Enter 000064 in the criteria, select EDI Code and choose the Search icon.

Double click on the first one in the list and select the

1. Billing No... button
2. Click in the Billing No. box beside the provider you want to update.
3. Type in the new billing number received from PBC for each billing doctor.
4. Click Ok and OK to save.
5. Repeat for each insurance company that has 000064 as an EDI Code.
